## **PINT CONCENTRATE**

*Read entire label before use.*

*Use only in accordance with label instructions.*

**Directions for Use (not recommended for in home use): SHAKE WELL FIRST!** Dilute 3 oz. of Organocide BEE SAFE 3-in-1 Garden Spray per gallon of water and shake well to blend. Once blended, **SHAKE OFTEN WHILE IN USE** to prevent separation. Diluted solution can be used up to 30 days. Use a clean sprayer that will put out a fine spray. Spray leaves and stems of plants, making sure tops and bottoms are covered, until run-off. If spraying on severely stressed or damaged plants, consider using a lower rate such as 1 oz. per gallon to avoid adding additional stress. For best results, spray during the coolest time of the day (early morning or late evening) and allow 3-4 hours for product to dry. Do not apply when temperatures exceed 95°F. A single application is normally enough for preventative control. For normal maintenance, spray once per month or as needed to spot treat areas. For severe problems, make two applications 3-4 days apart. Reapply in 7 days if problem persists.

**Garden Insects:** Organocide BEE SAFE 3-in-1 Garden Spray kills the eggs, larvae, nymphs, and the adult stages of over 25 soft bodied insects including (but not limited to) Aphids, Hemlock Woolly Adelgid, Leafrollers, Mealy Bugs, Thrips, White-Flies, Fungus Gnats and Psyllids.

**Spider Mites:** Including, (but not limited to) European Red Mite, Spruce Mite, Maple Mite, Southern Red Mite, Two Spotted Mite, Six Spotted Mite, Texas Citrus Mite, Russet Mite and Rust Mite.

**Scale Insects:** Including (but not limited to) Sago Palm Scale, Magnolia Scale, Oleander Scale, San Jose Scale, Hemlock Woolly Adelgid and Euonymus Scale.

**Diseases:** Organocide BEE SAFE 3-in-1 Garden Spray controls certain fungal diseases such as (but not limited to) Powdery Mildew, Downy Mildew, Black Spot on Roses, Helminthosporium and Greasy Spot on Citrus.

**Target Plants:** Vegetables, Fruits, Nuts, Vine Crops, Herbs, Ornamentals, Greenhouse Crops, Turfgrass, Landscape Plants, Bulbs, Flowers and Field Crops. Not For Indoor Use.

**Plant Compatibility:** When used as directed, Organocide BEE SAFE 3-in-1 Garden Spray has an unusually high degree of safety to most plants. However, some plants in the Euphorbia family (Crown of Thorns, Poinsettia) as well as some succulents and tomato plants have shown sensitivity. If in doubt, test first on a small area of foliage to determine plant safety.

# **ORGANOCIDE® BEE SAFE 3-in-1 GARDEN SPRAY**

## **PINT CONCENTRADO**

**Antes de usar, lea la etiqueta completa**

**Use únicamente según las instrucciones en la etiqueta.**

**Instrucciones de Uso (no recomendado para uso en el hogar): ¡AGITE BIEN PRIMERO!** Diluya 3 onzas de Organocide BEE SAFE 3-in-1 Garden Spray por cada galón de agua y agite bien para mezclar. Una vez diluido, **AGITE A MENUDO** para evitar separación. La solución diluida se puede utilizar un máximo de 30 días. Use un rociador limpio que emita un rocío fino. Rocíe las hojas y los tallos de las plantas, asegurándose de que los tops y los fondos estén cubiertos, hasta que se escurra. Si lo rocía sobre plantas sujetas a gran estrés o gravemente dañadas, considere usar una menor proporción como por ejemplo 1 oz. por galón para evitar que las plantas queden sujetas a estrés adicional. Para mejores resultados, rocíe durante la hora más fresca del día (mañana o tarde en la noche) y permitir 3-4 horas para que el producto se seque. No aplicar cuando las temperaturas superan los 95° F. Por lo general, una única aplicación es suficiente para el control preventivo. Para el mantenimiento regular, rocíe una vez al mes, o tal como sea necesario para tratar las áreas con manchas. Cuando se trate de un problema grave, aplíquelo dos veces, dejando 3-4 días de por medio entre las aplicaciones. Vuelva a aplicar en 7 días si el problema persiste.

**Insectos de Jardín:** Organocide BEE SAFE 3-in-1 Garden Spray mata los huevos, larvas, ninfas, así como los insectos adultos, en todas sus etapas, de más de 25 insectos de cuerpo blando incluyendo (sin estar limitado a) áfidos, pulgón de la tsuga, enrolla-hojas, chinches, gorgojos, tisanópteros, moscas blancas, mosquitos de hongo y psila peral.

**Ácaros:** Incluyendo (sin estar limitado a) ácaros rojos, ácaros araña de abeto, ácaros roya, ácaros rojos de cítricos, arañas de dos manchas, arañas de seis manchas, ácaros plateados, ácaros rojizos y ácaros enroñadores.

**Insectos en Escamas:** Incluyendo (sin estar limitado a) escamas de sagú, escamas de magnolia, escamas de adelfa, escamas de San José, pulgón de la tsuga y escamas de bonetero.

**Enfermedades:** El Organocide BEE SAFE 3-in-1 Garden Spray controla ciertas enfermedades causadas por hongos como (sin estar limitado a) roya polvorienta, roya negra, machas negras en las rosas, helmintosporium y manchas de grasa en los cítricos.

**Para Uso en las Siguiente Plantas:** Vegetales, frutas, nueces, vides, hierbas, plantas ornamentales, plantas de invernadero, grama, plantas decorativas, bulbos, flores y cultivos de campo. No es para usar en interiores.

**Compatibilidad con las Plantas:** Cuando se usa según las instrucciones, el Organocide BEE SAFE 3-in-1 Garden Spray ofrece un alto grado de seguridad para la mayoría de las plantas que es poco común. Sin embargo, algunas plantas de la familia Euphorbiaceae (como corona de espinas y flor de pascua o poinsettia) así como algunas suculentas y plantas de tomate han mostrado sensibilidad. Si tiene alguna duda, pruebe primero en una área pequeña del follaje para determinar la seguridad específica con la planta.
