**KEEP OUT OF REACH OF CHILDREN
CAUTION**

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information concerning this product, call the Poison Control Center 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and using the toilet.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

(WHY SLUGGO® MAXX BRAND IS EFFECTIVE)

This product contains a unique combination of iron phosphate, which is a plant nutrient that occurs in soils, with slug and snail bait additives. The bait which is not ingested by snails and slugs will degrade and become a part of the soil.

The bait is ingested by slugs and snails when they travel from their hiding places to plants. Ingestion, even in small amounts, will cause them to cease feeding and die. This physiological effect of the bait gives immediate protection to the plants even though the slugs and snails may remain in the area. After eating the bait, the slugs and snails cease feeding and die. Dead slugs and snails may not be visible as they often crawl away to secluded places to die. Immediate plant protection will be observed in the decrease in plant damage.

This product is effective against a wide variety of slugs and snails and will give protection to home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, nut trees, citrus and crop plants. The bait can be scattered on the lawn or on the soil around any vegetable plants, flowers or fruit trees or bushes to be protected.

The slugs and snails controlled by this product include (but are not limited to): *Deroceras reticulatum* (Field slug), *Deroceras laeve* (Smooth slug), *Arion subfuscus* (Dusky slug), *Arion circumscriptus* (Gray garden slug), *Arion hortensis* (Black field slug), *Arion rufus* (Large red slug), *Arion ater* (Large black slug), *Limax flavus* (Spotted garden slug), *Limax tenellus* (Slender slug), *Ariolimax columbianus* (Banana slug), *Achatina fulica* (Giant African land snail), *Pomacea canaliculata* (Golden Apple Snail), *Helix* spp., *Helicella* spp., and *Cepaea* spp.

HOW TO APPLY:

Scatter the slug and snail bait granules on the soil around or near the plants to be protected. Do not place in piles. Plants will be protected for up to two weeks. Apply more heavily if the infestation is severe, if the area is heavily watered or after long periods of heavy rain. The product works best when soil is moist but with little or no standing water. Do not use kitchen utensils for food uses after pesticide use.

Reapply as the bait is consumed or as needed. See specific directions for different plant types and for inside residential greenhouses.

WHEN TO APPLY:

For best results, apply the bait during the evening, as slugs and snails travel and feed mostly by night or early morning.

AMOUNT TO APPLY:

1.5 – 5.5 oz./1,000 sq. ft. or 0.5 teaspoons/sq. yd.

WHERE TO APPLY:

Treat areas of infestation, especially around the base of plants, between rows and around the perimeter of the garden plot to provide a protective "barrier" for slugs and snails entering the garden plot. Slugs/snails favor damp places around vegetable plants. Other favorite areas are flower gardens, rockeries, hedges, dichondra lawns, citrus groves, ivy patches, and other ground cover where they obtain shelter by day.

VEGETABLES

Use the bait to protect any vegetables from slug and snail damage, such as: artichokes, asparagus, beans, beets, black-eyed peas, broccoli, Brussels sprouts, cabbage, cantaloupe, carrots, cauliflower, celery,

corn, cucumbers, eggplants, garlic, lettuce, mustard, onions, parsnip, peas, peppers, potatoes, pumpkin, radishes, rhubarb, rutabagas, spinach, squash, Swiss chard, tomatoes and turnips. Scatter the bait around the perimeter of the vegetable plot. If slugs or snails are inside the rows, scatter the bait on the soil around the base of the plants and between the rows.

FRUITS Including Citrus

Use the bait to protect fruits from slugs and snails, such as: apples, avocados, apricots, cherries, grapes, melons, nectarines, oranges, peaches, plums, citrus, and pears. For seedlings spread the bait around the base of the stem. Apply in a 6-inch circular band around the base of the plants to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

BERRIES

Use the bait to protect berries from slugs and snails, such as: strawberries, blackberries, currant, blueberries, boysenberries, loganberries, and raspberries. Spread the bait around the perimeter of the plot. If slugs and snails are already in the plots, then carefully spread bait between the furrows near the base of the plants. For small plots, treat around the base of the plants to be protected. Scatter by hand or with granular spreaders.

HERBS

Use the bait to protect herbs from slugs and snails, such as: angelica, balm, basil, borage, burnet, chamomile, catnip, chervil, chive, clary, costmary, cilantro, curry, dillweed, horehound, hyssop, lavender, lemongrass, lovage, marigold, nasturtium, parsley, pennyroyal, rosemary, rue, sage, savory, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood. Scatter the bait around the perimeter of the herb plot. If slugs or snails are inside the rows, then scatter the bait on the soil around the base of the plants and between the rows.

OUTDOOR ORNAMENTALS

Scatter bait in a 6-inch circular band around the base of the plants to be protected. Scatter the bait around the perimeter of the plot to intercept snails and slugs traveling to the plot. If plants are next to a grassy area, spread the bait between the ornamentals and the grass.

NUT TREES

Use this bait to protect nut trees from slugs and snails, such as: almonds, hazelnuts, pecans, and walnuts. For seedlings spread the bait around the base of the stem. Apply in a 6-inch circular band around the base of the plants or trees to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

RESIDENTIAL GREENHOUSES

Scatter the bait on greenhouse benches, floors and in or around the pots and containers of plants being damaged.

LAWNS

Broadcast the bait on lawns or use as a buffer zone around gardens. When slugs or snails are detected, scatter the bait by hand or with a granular spreader where the slugs or snails are observed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

Container Disposal: Nonrefillable container. **If empty:** Do not reuse or refill this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY

To the extent consistent with applicable law, the seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions for use. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied.

NOTE: This package is sold by weight. Contents may have settled during shipment.
