

# Neptune's Harvest Fertilizer

# ORGANIC Soil Conditioner

# Humate Concentrate 12%

### Introducing Neptune's Harvest 12% Humate Concentrate!

Our 12% Humate is a liquid concentrate that contains 12% active humic acids by weight. Humic acids are not a plant food. Humic acids may increase the availability of micronutrients.

12% Humate Concentrate has been thoroughly filtered through a 200-mesh screen and will not clog spray or irrigation equipment. This liquid humate is compatible with most materials, except those with a very low pH (less than 4.0). It is not compatible with calcium nitrate. To be safe, an initial jar test is always recommended when mixing 12% Humate Concentrate with companion materials for the first time.

- Multi-Purpose
- Perfect for Grass
- Soil Conditioner
- Improve Soil Structure

- Increased Chlorophyll Content
- Increased Nutrient Uptake
- Improved Plant Quality
